WHAT'S IN A NAME?—A REPLY PROM SUMMER VILLE.—SUMMERVILLE, S. C., August 21, 1867.—Sur: I notice an article in the Dally News of the 21st inst., in reference to "Elps," "James Elps and Elps James," which, Lauppose, you think a rather spley joke on the colored population, but which I think (as one of the same race), in my estimation, is a poor way of working your name in public notice; especially, suppose for instance the dignified Chairman of the 3d Precinct had been held in bondage from the time of his birth to manhood (an iron rule for some), and never had the slight tha from the resonance of the same, but called by some nick-name, say, for instance, "Bailry," "Bail," or "Battonhead," or any such manie your fanciful master might give you. And now I will sk, fairly and squarely, whose fault would it be, 'Elps" or Buttonhead?

PRO BONO PUBLICO.

Base Ball .- We have been informed that the Ball between the Palmetto and Alert Clubs of this city will be played to-morrow atternion the 24th instant. It will be remembered by the friends of the Clubs respectively that on the last occasion there were but five innings played, at the conclusion of which the Palmettees were declared the victors by two runs. This, however, did not disourage the Alerts, and after some week's practice they sent in their challenge to the victors, and to-morrow afternoon the game will be called on the Citadel Square at half-past two o'clock. We have been requested to extend an invitation to the public generally to witness the game; and we tope, should the weather prove favorable, that there will be a large attendance of spectators, par-ticularly of the ladies. We predict a well contest ed game, with any quantity of flys, tips, fouls home runs, to say nothing of the fielding, batting, &c., and advise all who feel an interest in the game to be present.

1500 to 2000 gister. EDITORS DAILY NEWS :- I was surprised, by

editorial this morning , mentioning the re ceipt of five bags new Sea Island Cotton, by the arrival of steamer Pilot Boy yesterday, from savanual, Beaufort, &c. Knowing as 1 do, from nation received from Florida and elsewhere that the crops of cotton are from three to fo weeks later in maturing than usual, and with the long experience I have had in the business, and selling cotton of that description, grown all along the coast, from the Gulf in Florida to the Long otton region north of Charleston, I had never be fore known of any quantity sent to market thus early in the scason. And as I am quite aware that such statements

are construed and perverted to the injury of the planters as well as of those who are legitimate myers of cotton, I feel it incumbent on mo to ea that the five bags Sea Island referred to were con signed to my house, and that it is old Cotton, the growth of 1866, and was not sent to market previously, owing to the lamented death of the owner, the late T. H. Spann, who planted near Beaufort, Respectfully, W. M. LAWTON.

REGISTRATION IN THE CITY.—The managers of the different precincts are not immaculate, but are often hable to mistakes. The peculiar wording of the bill leaves them a considerable discre-tionary power, and this is exercised at times according to the construction that each party might cumstances, to expect a unanimity of opinion, especially if the case in question be one that has arisen out of the complication of the times. We were induced to make these remarks from an incident that occurred at the Fourth Precinct du-

An applicant for registration, was asked if he were a native and replied in the negative, stating that he had come to this country when quite a lad, and showed the naturalization papers taken out by his father in '57, before Judge GLOVER The board decided that the applicant was not a ritizen, as he should have taken out naturalization papers for himself. This decision is contrary impression formed by many persons, that to the impression formed by many persons, that if they came into the country under a certain age and remained until their majority they were bona fide citizens. A number of our citizens were restrained from applying for the necessary papers on this account, and if the opinion of the Board is sustained, will be deprived of the neivilege of rating. We trust that those of the privilege of voting. We trust that the who are interested will appeal to the Commanding General, and ascertain definitely what are the proper qualifications for a citizen.

IMPROVEMENTS.—Few persons whose daily walks abroad are in the up-town direction have failed to notice the improvements that have been effected on the Citadel Green. We have already noticed the next fence that has been placed around this Square, and stated at the time that other improvesoftare, and stated at the time that other improvements were contemplated; these are now in progress, and whon completed will give the Green something of its ante beäum appearance. The authorities are at present having the Green laid of in ready which are to be supplyed. authorities are at present having the Green laid off in reads, which are to be curbed and covered with shell; the numerous paths that formeriy intersected it will then be ploughed up and the whole sown in grass seed. No one will be allowed access to the grounds but by the different reads. These will cross each other at right angres, that leading to the Citadel from Calloom street branching near the main entrance, so as to allow carriages to pass through the return as to allow carriages to pass through the return as to allow carriages to pass through the gate without confusion. The workness have already made considerable headway in their labor, and in a few days the Green will be in perfect order.

Among other contemplated improvements, the
fence will be stained by a light brown wash. This will be a pleasing contrast to the white shel walks, and will render the Green more of a public resort than when it was in a state of nature.

The wind whistled shrill."
Excepting the proverbial young ducks, we doubt if Excepting the proverbial young ducks, we doubt if the present rainy spell has been acceptable to any one in this community. For two days it has been not dropping but pouring, and woe to the unlucky wight who was cought any distance from shelter, for his umbrella was useless, and he was speedily drenched to the skin. We doubt if Father Noan, with all of his nautical skill, could have kept his ferry boat alloat in the torrent that came down Wednesday night; it was resistless, carrying overy-thing before it, bursting into windows, fleeding cellars, stores, and doing a vast amount of damage. Several dangerous holes in the streets, caused by the caving in of drains and sidowalks, are reported to the city authorities, and though prompt measures were taken to repair the injuries the swift descending rain compolled the laborers to reire, and it was only in the short intervals between showers that any work could be done. The rains appear to have been general throughout th country, but that of Wednesday night was more severe than any that we have endured for some time. It was accompanied by loud thunder and fierce lightning, while He wind blow the waters in every direction. We trust that no injury has been inflicted on the crop, but fear they have not been able to withstand the torrents that flooded th
